

LEADING TECHNOLOGY • SURPASSING QUALITY • EMPOWERING DESIGN

Take advantage of the flexibility of **t.fusion** to incorporate innovative design features. Develop durable furniture and casegoods with seamless and sleek edge profiles for a sophisticated and elegant office environment. Create the ultimate in upscale office interiors while relying on the environmental benefits of **t.fusion**.

- Custom colors, shapes, and finishes for an upscale designer appearance
- **t.fusion** provides improved tactile and sound traits. It feels durable, yet sophisticated, and absorbs sound better than alternative finishes
- **t.fusion** is more durable than many other finishes, such as liquid paint or melamine, and is free of delamination, peeling, or seams
- Color matching is custom and precise
- The process and finish is environmentally friendly, with no HAPs, VOCs, PVCs, or hazardous wastes. MDF is made from recycled wood byproducts. Powder overspray is reclaimed and reused
- An optional antimicrobial additive is available to enhance the safety of the work environment

POSSIBLE USES:

- Desktops and work surfaces
- Casegoods
- Cabinet doors/drawer fronts
- Wall panels and dividers
- Modesty panels
- Reception areas
- Conference room furniture
- Media/hospitality carts
- Bookcase components
